Summary

Full Stack Developer experienced in building web applications with React.js, Next.js, Node.js, and MongoDB. Skilled in REST API development, database management, frontend architecture, and AI-powered integrations. Focus on robust, efficient, and user-centric end-to-end solutions.

Skills

Languages: JavaScript, HTML, CSS, C++
Frontend: React.js, Next.js, Tailwind CSS, shadcn/ui
Backend: Node.js, Express.js
Database: MongoDB
Tools & Platforms: Git, GitHub, VS Code

Experience

Full Stack Development Intern

July 2025 – August 2025

THDC INDIA LIMITED (On-site)

- Contributed to full-stack feature development using React.js, Node.js, and REST APIs on a branch-based Git workflow.
- Built and documented RESTful API endpoints for user data management and internal application workflows.
- Optimized MongoDB queries for frequently accessed data, improving retrieval efficiency and application performance.

Projects

NeuroVault | Next.js, Convex, Clerk, Shadcn

- Built a Second Brain application to centralize personal notes and documentation in a clean, unified dashboard.
- Implemented **document and note management**, enabling users to upload MDX/text files and create individual notes.
- Integrated **OpenAI-powered summarization and AI chat**, generating concise document summaries and answering user queries from uploaded content.
- Added Convex vector semantic search and Clerk-based organization support to enable intelligent search across notes.

TypingBud | React.js, Express.js, REST API

- Built a **typing speed web application** in React.js with three test modes **Time**, **Word Count**, and **Quote**
- Designed a **real-time typing engine** to track keystrokes, errors, WPM, and accuracy.
- Developed a modular frontend architecture with reusable components including **Typing Box**, **StatsBar**, **Graph** and **Timer**.
- Implemented **JWT-based authentication** with protected routes, user sessions.

Captionly | Next.js, React, Tailwind CSS

- Built a **full-stack captions generation Platform** that lets users upload videos, generate transcriptions, and embed captions directly into the video.
- Created a **captions editor** to review and modify transcriptions, adjust timing, and customize caption styles.
- Used **FFmpeg compiled to WebAssembly** to process and render captions directly in the browser for efficient client-side video handling.

Achievements

- Ranked among the top 5 students in my academic batch
- Solved 250+ DSA problems on LeetCode and GeeksforGeeks.

Education

GB Pant Institute of Engineering and Technology

Pauri Garhwal

Bachelor of Technology in CSE (AI/ML)

2022 - 2026

St. Peters School (CBSE)

Udham Singh Nagar

Class XII – 95.4% | Class X – 91.8%

2019 & 2021
